Water Enforcement Branch

As per your November 6, 1981 letter to Fred Rubel, attached please find the following:

1. Memorandum from Christine Hylemon of Ecology and Environment concerning a desk review of the "new" SPCC Plan you sent to Fred Rubel.
2. Memorandum from Christine Hylemon to Michael V. Polito dated February 22, 1982 concerning a field inspection of the Lancia facility.

Please note that this report utilizes the new format I have established incorporating EPA Forms 7500-52 thru 7500-54.

After your legal review, a meeting can be arranged between Ms. Hylemon and yourself if required. Such arrangements, however, must be coordinated through me as Assistant Deputy Project Officer or Fred Rubel as Deputy Project Officer.
